

ARHUMATIC

ARHUMATIC Vinea Auri

Rum & Raisin

Rhum Arrangé – 30%, 700ml

Range | With over ten years of experience in France's top produce markets, Clémence and Thierry Ogez have honed their knowledge of quality fresh fruits. ARHUMATIC started as the blending of rum and fruit for personal enjoyment and has led to a passionate business, now exported globally.

ARHUMATIC was founded in 2014 to create craft artisanal rum arrangé. Always seeking the best expression of authenticity, their collections evolve throughout the year with the selection of ingredients according to four integral criteria: Seasonality, Quality, Ripeness and Taste.

Each bottle is the result of long and demanding research. Many recipes are tried and tested until the perfect balance is struck, showing the best possible expression of ingredient and blending.

Product description | ARHUMATIC wanted to recreate the popular combination of rum & raisin with a new approach. An elementary concept became a fanatical drive to express the full experience of the simple ingredients. The results are a blend of three base rums (from Guadeloupe and Jamaica) with three types of raisin -- the Corinth raisin from Greece and two varieties of sultana from Chile and South Africa.

To Enjoy

We recommend enjoying ARHUMATIC rum arrange neat, over ice, with sparkling wine or water. A bottle of rum arrangé can be enjoyed as a convivial experience shared after dinner or as a complement to an afternoon with friends. ARHUMATIC can be refrigerated before serving, but to maintain the integrity of fruit it should not be stored in the refrigerator for long periods.
